

ABSTRACT

LISTEN BEFORE TALK LBT SUBBAND DIVISION METHOD, APPARATUS, DEVICE, AND MEDIUM

Embodiments of this disclosure disclose a listen before talk LBT subband division method, apparatus, device, and medium. The method includes: obtaining first information, where the first information includes information about frequency domain starting and ending positions of a target, and the target includes a carrier or a bandwidth part BWP; and dividing the target into LBT subbands based on the information about the frequency domain starting and ending positions.
