FIG. 10

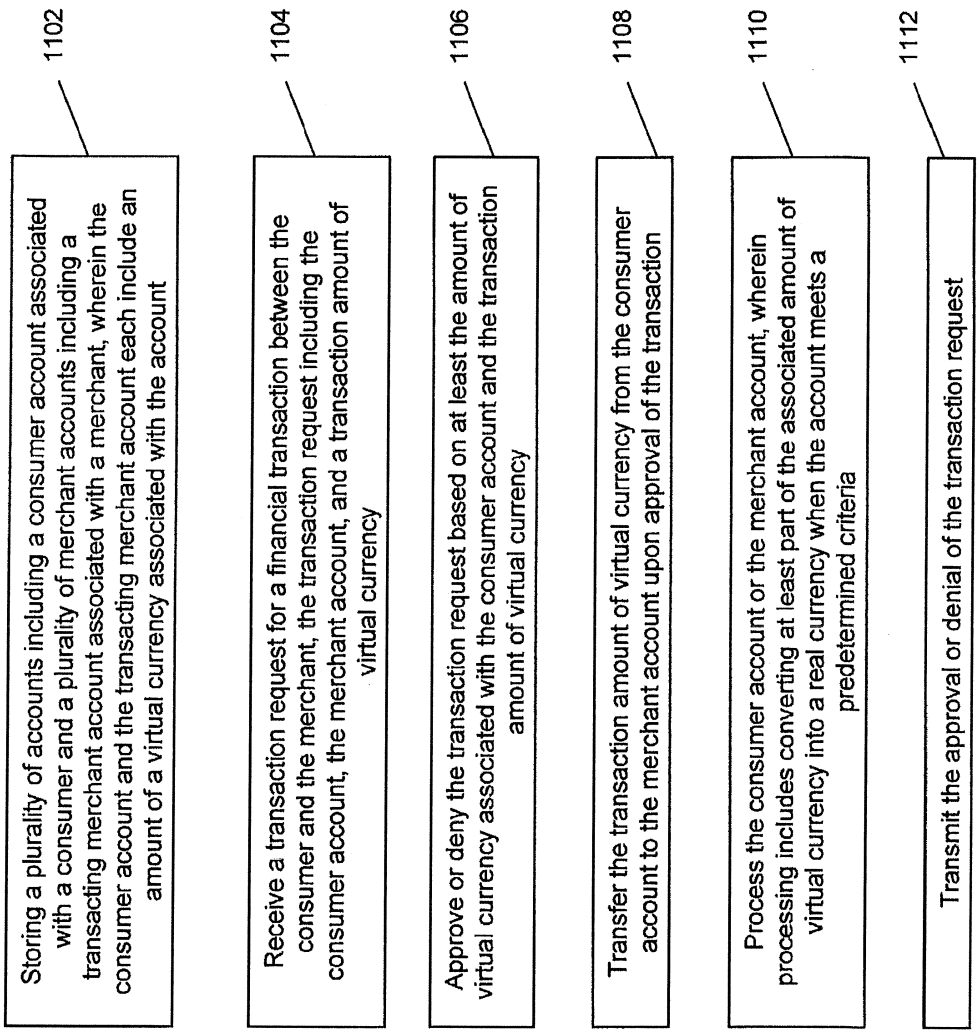

1100
Storing a plurality of accounts including a consumer account associated with a consumer and a plurality of merchant accounts including a transacting merchant account associated with a merchant, wherein the consumer account and the transacting merchant account each include an amount of a virtual currency associated with the account
1102
Receive a transaction request for a financial transaction between the consumer and the merchant, the transaction request including the consumer account, the merchant account, and a transaction amount of virtual currency
1104
Approve or deny the transaction request based on at least the amount of virtual currency associated with the consumer account and the transaction amount of virtual currency
1106
Transfer the transaction amount of virtual currency from the consumer account to the merchant account upon approval of the transaction
1108
Process the consumer account or the merchant account, wherein processing includes converting at least part of the associated amount of virtual currency into a real currency when the account meets a predetermined criteria
1110
Transmit the approval or denial of the transaction request
1112

FIG. 11

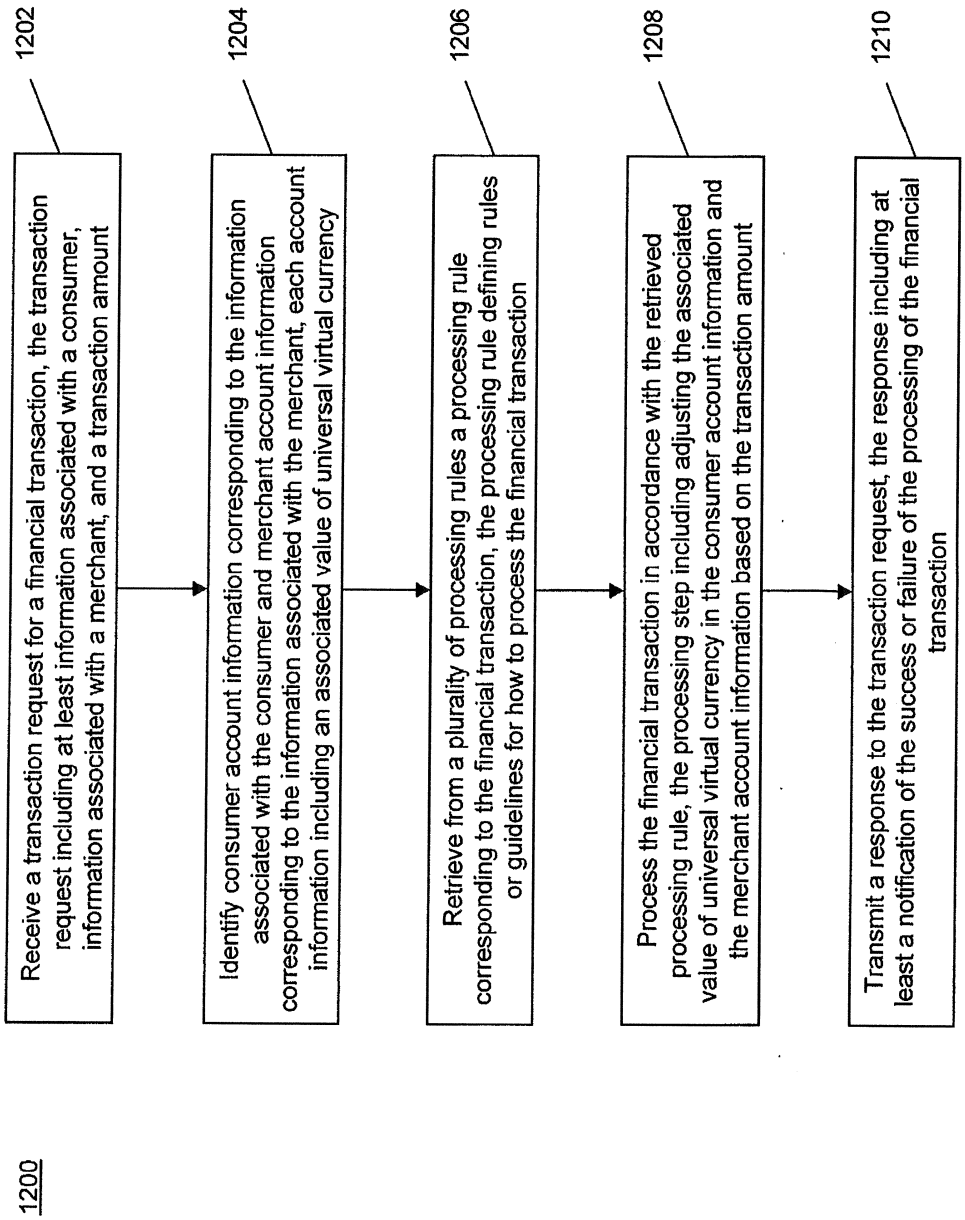

1200
1202
Receive a transaction request for a financial transaction, the transaction request including at least information associated with a consumer, information associated with a merchant, and a transaction amount
1204
Identify consumer account information corresponding to the information associated with the consumer and merchant account information corresponding to the information associated with the merchant, each account information including an associated value of universal virtual currency
1206
Retrieve from a plurality of processing rules a processing rule corresponding to the financial transaction, the processing rule defining rules or guidelines for how to process the financial transaction
1208
Process the financial transaction in accordance with the retrieved processing rule, the processing step including adjusting the associated value of universal virtual currency in the consumer account information and the merchant account information based on the transaction amount
1210
Transmit a response to the transaction request, the response including at least a notification of the success or failure of the processing of the financial transaction
