(54) Title: NOVEL SKIN CARE FORMULATION

(57) Abstract: Formulations and methods for the treatment and care of skin, especially to the treatment of dehydrated and damaged skin associated with environmental exposure and disease are described. The inflammation associated with dermatological or immunological conditions, viral and bacterial infections, and burn lesions may also respond to treatment with the present invention. The formulations comprise a mixture of cobra venom and orthosilicic acid and an acceptable excipient. The disclosed formulation may be orally or topically administered.
