

Stirrer for a stirrer vesselAbstract:

A stirrer (2) for a stirrer vessel (20), which stirrer (2) comprises a stirrer head (1), a drive unit (4) and a magnetic coupling (3), wherein the magnetic coupling (3) has drive magnets (5) connected to the drive unit (4) and stirrer head magnets (6) connected to the stirrer head (1), wherein the stirrer head (1) has stirrer blades (7) and a bearing assembly (8) and wherein the stirrer blades (7) are connected to the stirrer head magnets (6) and the bearing assembly (8), wherein the bearing assembly (8) rotatably supports the stirrer head (1) and the bearing assembly (8) comprises a first rotational bearing (9), wherein the bearing assembly (8) comprises a second rotational bearing (10), which is arranged spaced apart from the first rotational bearing (9) in the stirrer head (1).
