(54) Title: BIODEGRADABLE DRAIN BOARD

(57) Abstract: The invention provides for a core of a drain board manufactured from a composition comprising a. a polyester comprising one or more hydroxycarboxylic acids as monomers, b. a copolyester comprising at least one diol component and at least one diacid component, c. an inorganic filler, wherein the composition comprises at least 5 wt.% of the inorganic filler, based on the total weight of the composition. The invention also provides for a process for manufacturing the core of the drains board and a biodegradable drain board.
