(54) **Title:** METHOD AND APPARATUS FOR SEARCHING RIGHTS OBJECTS STORED IN PORTABLE STORAGE DEVICE USING OBJECT LOCATION DATA

(57) **Abstract:** There is provided a method and an apparatus for searching rights objects stored in a portable storage device by using an object location data. The method includes: accessing the portable storage device; transmitting an object identifier to the portable storage device; receiving a location data of a first object searched based on the object identifier from the portable storage device; storing the location data of the first object with the object identifier; and transmitting the location data of the first object and an operation data representing operations to be performed with the first object to the portable storage device by using the location data of the first object.
