(54) **Title:** IMPEDANCE CONTROLLED ELECTRICAL CONTACT

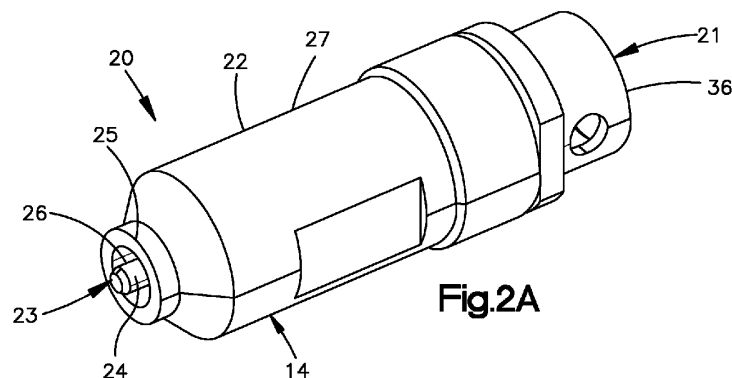

Fig.2A

(57) **Abstract:** A radio frequency (RF) electrical contact includes an electrical contact having a stationary electrical contact member and a movable electrical contact member that is received by the stationary electrical contact member. The movable electrical contact member is movable between an initial position and a mated position. The movable electrical contact member can contact the stationary electrical contact member at a stationary or fixed contact location.
