ance Notes on Codes and Abbreviations" appearing at the begin-
ning of each regular issue of the PCT Gazette.

(54) Title: ARRANGEMENT FOR A SWITCH-EQUIPPED STEERING WHEEL

(57) Abstract: At least two multifunction switches (82, 83) are mounted on opposite sides of a vehicle steering wheels (5) relative to it centre to effect control of vehicle functions and/or optional functions. A display device (106) on the vehicle dashboard indicates available main functions (107b) and optional subsidiary functions thereof. A first (82) of the multifunction switches can be manipulated to effect selection of a main function and/or subsidiary function. A second (83) of the multifunction switches can be manipulated to effect initiation of selected control operation or function control (108f), and/or subsidiary control operation thereof. A person operating the switches can interactively control them by observing displays (107b; 108f) on the display device (106).
