(54) Title: SELECTIVELY REINFORCED MULTI-PLY FOOD CONTAINER

(57) Abstract

A multi-ply food container (10). The multi-ply food container (10) has selective reinforcement (24) at the center of the food container (10), and regions of a raised side wall (16) and/or rim (18) which are not reinforced. The reinforcement is preferably done by joining an additional ply (24) to the food container (10).
