

ABSTRACT

HAIR DRIER

To provide a hair drier capable of emitting red LED
5 light to the scalp efficiently to improve the scalp
environment, a hair drier of the present invention is arranged
such that a cover body (3) provided at an air outlet (12) of a
blower (14) has a facing surface (31a) that faces the head of
the user in a state where the cover body (3) is covering at
10 least a portion of the head of the user, the facing surface
(31a) being provided with an LED light-emitting section (34)
configured to emit LED light to the scalp of the head.
