(54) Title: DATA ENTRY SYSTEM

(57) Abstract: A data entry system, for processing ambiguous data, as shown in Figure 18 includes unambiguous keys (14207, 14208) and ambiguous keys (14203). The system predicts words from the ambiguous entry. If the predicted word is not desired, an unambiguous entry replaces a character in the word with the desired character. A second prediction is made based on the unambiguous entry.
