**(54) Title:** METHOD AND SYSTEM FOR THE BROWSING OF HYPERTEXT PAGES**(57) Abstract**

The present invention relates to a method and system for the browsing of hypertext pages by means of a mobile station in a telecommunication system, said system comprising a mobile station (1), conversion means (2) and a telecommunication network (3). The invention makes it possible to browse WWW pages and follow hyperlinks on the display of an ordinary mobile station. The invention is particularly well suited for mobile stations supporting the Smart Messaging definition.
