The image shows a web browser window with a navigation bar at the top containing back, forward, home, and address bar icons. The address bar displays 'http://www.example.com/'. Below the navigation bar is a section titled 'BANDWIDTH MANAGEMENT'. The main content area contains the following settings:

- Bandwidth management: ☒ Enable
- Group bandwidth policies: ☒ Enable — Requires bandwidth management. Reboot not required.
- Bandwidth uplink (to network) speed:  Kbps
- Bandwidth downlink (to subscribers) speed:  Kbps
- Reboot after changes are saved? ☐ Yes

At the bottom of the form are two buttons: 'SUBMIT' and 'RESET'.
