

ABSTRACT

A pharmaceutical composition, and a preparation method therefor and an application thereof. The pharmaceutical composition comprises a spiro-aryl phosphorus oxide or a pharmaceutically acceptable salt thereof as an active ingredient and a pharmaceutically acceptable carrier. D₉₀ of the spiro-aryl phosphorus oxide or the pharmaceutically acceptable salt thereof is in a range of 40.3 μm to 79.6 μm. The pharmaceutical composition has high content uniformity, a high dissolution rate, and high in-vivo bioavailability, and can be used for treating cancer.
