

Abstract

5 A CSF-1R inhibitor pharmaceutical composition, a preparation method therefor and a pharmaceutical use thereof. The CSF-1R inhibitor composition comprises a free base of a compound of formula (I) having the following structure or an acid salt of the compound as an active ingredient. A suitable diluent and other pharmaceutically acceptable carriers are used, and the flowability and the color uniformity of the active pharmaceutical ingredient powder are improved by adjusting the prescription components of a pharmaceutical preparation, so as to obtain a prescription and a pharmaceutical
10 preparation.
