

ABSTRACT

INFORMATION PROCESSING APPARATUS, NON-TRANSITORY STORAGE
MEDIUM, AND INFORMATION PROCESSING METHOD

An information processing apparatus manages a vehicle used for a car-sharing service. The information processing apparatus includes a control unit configured to acquire, from a user, as application information for using the vehicle, one of application information for reservation use for making a reservation in advance and application information for on-demand use for accepting use of a vehicle stopped at an on-demand stand-by station. The same vehicle can be used for both the reservation use and the on-demand use.
