(54) Title: METHOD FOR IDENTIFYING A LEAKAGE IN A CONDUIT IN WHICH A FLUID FLOWS AND SYSTEM THEREOF

(57) Abstract: The present invention relates to a method for identifying a leakage in a conduit in which a fluid flows. Said method allows to identify a leakage in said conduit based on the mechanical deformation of a cable comprising inside at least one optical fiber, at a plurality of predetermined points of said cable, when said cable is arranged tensioned inside said conduit. The present invention also relates to a system for identifying a leakage in a conduit.
