

ABSTRACT

ANIMAL TRAP

5

An animal trap (1,2) locatable over a trap zone (15, 50), including an umbrella assembly (3,33), a curtain net (8,34) supported by the umbrella assembly and releasable from an outer periphery of the umbrella assembly, and an actuation arrangement (17,46) for holding the curtain net at or adjacent the outer periphery, and for releasing the curtain net therefrom when actuated to drop the curtain net downwardly therefrom to thereby at least substantially encompass the trap zone.
