

Abstract

LIGHT GUN FOR PISTOL AND RIFLE

A light gun includes a trigger unit(100), a grip
5 coupled to the trigger unit, and a barrel unit (31)
coupled with the trigger apparatus. The trigger unit
has a trigger and a hammer, and the barrel unit
includes a light emitting unit (40) which emits a light
bullet in response to generation of an impact by the
10 hammer when a trigger operation is carried out by
pulling the trigger.
