

【ABSTRACT】

The present disclosure relates to a novel heterocyclic amine derivative represented by the following Chemical Formula 1 or a pharmaceutical composition comprising the same. The compound according to the present disclosure can be effectively used for the prevention or treatment of inflammatory diseases, autoimmune diseases, or cancers.

[Chemical Formula 1]

in Chemical Formula 1, Y_1 , R_1 , A , R_2 , k , Y_2 , L , X and R_3 are as defined in the detailed description.
