(54) Title: CONJUGATES OF DISORAZOLES AND THEIR DERIVATIVES WITH CELL-BINDING MOLECULES, NOVEL DISORAZOLE DERIVATIVES, PROCESSES OF MANUFACTURING AND USES THEREOF

(57) Abstract: The present invention provides conjugates of disorazoles and their derivatives with cell-binding molecules, such as peptides, proteins, hormones, blood proteins and anti-bodies. The present invention further provides novel disorazole derivatives and processes of manufacturing such conjugates and disorazole derivatives. These compounds can be used as medicaments for the treatment of physiological and/or pathophysiological conditions in mammals, in particular for the treatment of various tumors.
