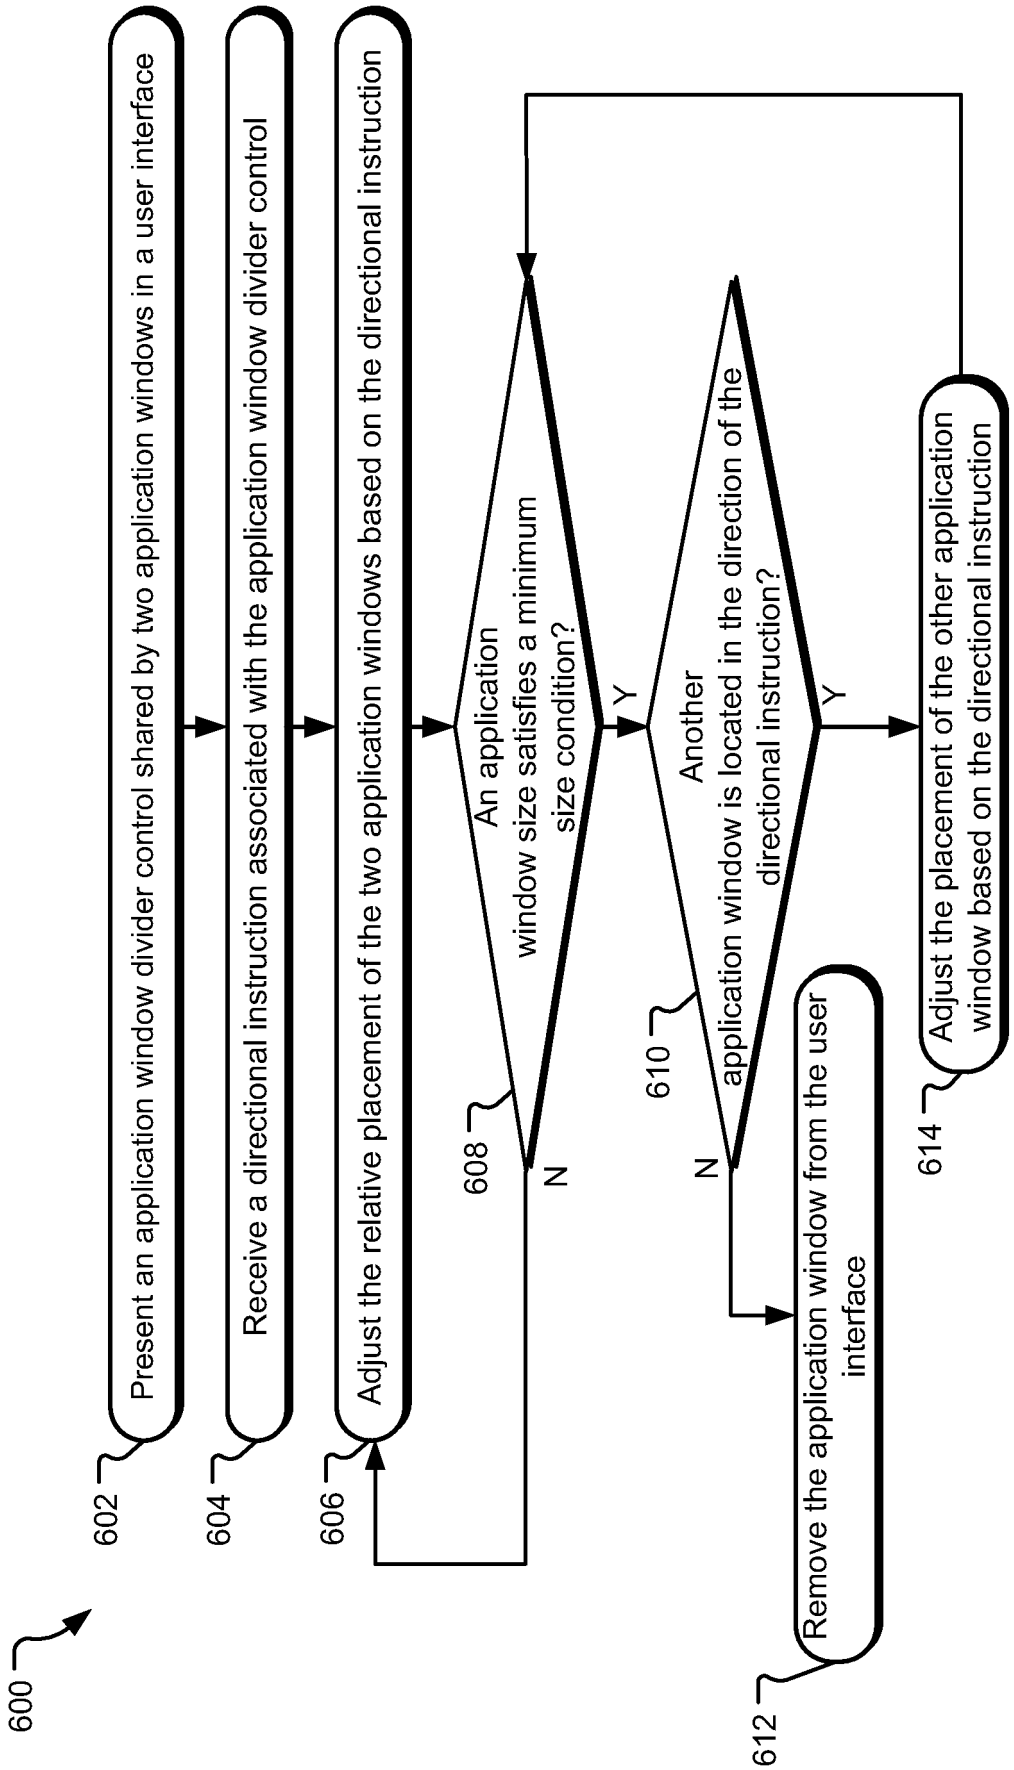
FIG. 5



600
602
Present an application window divider control shared by two application windows in a user interface
604
Receive a directional instruction associated with the application window divider control
606
Adjust the relative placement of the two application windows based on the directional instruction
608
An application window size satisfies a minimum size condition?
Y
N
610
Another application window is located in the direction of the directional instruction?
Y
N
612
Remove the application window from the user interface
614
Adjust the placement of the other application window based on the directional instruction

700
Present an application window divider control shared by two application windows in a user interface
702
Receive a directional instruction associated with the application window divider control
704
Adjust the relative placement of the two application windows based on the directional instruction
706
Movement of the application window divider control satisfies a speed condition and/or a distance condition relative to a magnetic point?
708
N
Y
Snap the application window divider control to the magnetic point in the user interface
710
