

ABSTRACTFILM FORMING COMPOSITION AND METHOD FOR PREPARING
FILM USING THE SAME

5

[Problem] To provide a film forming composition and a method for preparing a film with which it is possible to form a film having excellent gas barrier performance.

10 [Means for Solution] Disclosed is a film forming composition comprising: a polysiloxane that does not include a hydroxyl group or a carboxyl group; a polysilazane; and an organic solvent. Also disclosed is a method for preparing a film comprising: coating a substrate with said composition; and exposing the same to light.
