

PARKING FEE COLLECTION METHOD, APPARATUS, AND ELECTRONIC DEVICE

ABSTRACT

One or more implementations of the present specification provide a parking fee
5 collection method, apparatus, and an electronic device, applied to a parking fee
collection system. The method includes the following: obtaining vehicle information
of a parked vehicle in a parking space, where the vehicle information has a
corresponding user account on a payment platform; and initiating a payment
collection request for the vehicle information to the payment platform each time a
10 parking time period of the parked vehicle in the parking space reaches a first
predetermined time period, to collect an asset corresponding to the first predetermined
time period.
