What is claimed is:

1. A method of making the compound AR-67

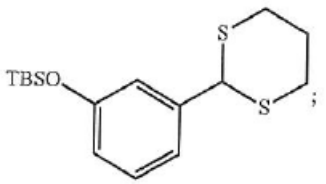

comprising:

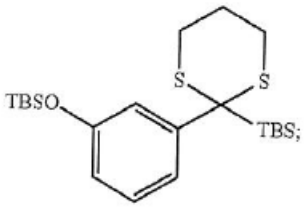

forming AP4622-1

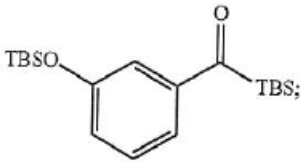

from propane-1,3-dithiol and 3-hydroxybenzaldehyde; adding a solution of TBSC1 to a solution of AP4622-1 and imidazole to form AP4622-2

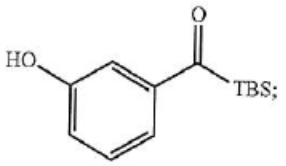

adding n-BuLi to a solution of AP4622-2 to form a first mixture and adding TBSC1 to the mixture to form AP4622-3

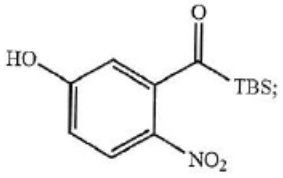

adding a solution of AP4622-3 to a solution of NBS to form AP4622-4

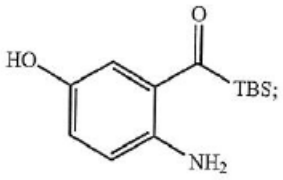

adding tetrabutylammonium fluoride trihydrate to a solution of AP4622-4 to form AP4622-5

adding HNO_3 to a solution of AP4622-5 to form AP4622-6

adding tin powder to a mixture of AP4622-6 to form AP4622

and

combining AP4622, s-Trione, in the presence of TsOH to form AR-67.
