Tempe, AZ 85281 (US).

(54) Title: COMFORT FIT SLIP-RESISTANT EYEWEAR SYSTEM

(57) Abstract: A slip-resistant eyewear system comprising a nose pad comprising a securing member configured to couple to a portion of an eyewear frame and a flap pivotally coupled to the securing member, wherein an angle formed between the securing member and the flap is an acute angle. Implementations of a flap-style nose pad may comprise a pocket configured to house a preexisting eyewear nose pad therein. Other implementations of the nose pad may be configured to adhere to a preexisting eyewear frame. Use of a higher durometer material and a lower durometer material to form the nose pads allows for a custom fit to accommodate wearers of varying facial topography avoid slippage of the eyewear system.
