Claims

[Claim 1]

A beer-taste beverage having an original extract concentration greater than or equal to 20.0 mass%, an apparent attenuation greater than or equal to 70.0%, and an alcohol content less than 25.0 (v/v)%.

[Claim 2]

A method for producing a beer-taste beverage having an original extract concentration greater than or equal to 20.0 mass% and an alcohol content less than 25.0 (v/v)%, the method comprising performing fermentation in such a manner that an apparent attenuation of the beer-taste beverage is greater than or equal to 70.0%.

[Claim 3]

A method for improving a flavor of a beer-taste beverage, the method comprising adjusting an original extract concentration to be greater than or equal to 20.0 mass%, an alcohol content to less than 25.0 (v/v)%, and an apparent attenuation to be greater than or equal to 70.0%.

[Claim 4]

A beer-taste beverage having a real extract concentration less than or equal to 11.8 mass% and an alcohol content greater than or equal to 10.5 (v/v)%.

[Claim 5]

A method for producing a beer-taste beverage having a real extract concentration less than or equal to 11.8 mass%, the method comprising performing fermentation in such a manner that an alcohol content of the beer-taste beverage is greater than or equal to 10.5 (v/v)%.

[Claim 6]

A method for improving a flavor of a beer-taste beverage, the method comprising adjusting a real extract concentration to be less than or equal to 11.8 mass% and an alcohol content to be greater than or equal to 10.5 (v/v)%.

[Claim 7]

A beer-taste beverage having an apparent attenuation greater than or equal to 70.0% and an alcohol content greater than or equal to 10.5 (v/v)%.

[Claim 8]

A method for producing a beer-taste beverage, the method comprising performing fermentation in such a manner that an apparent attenuation is greater than or equal to 70.0% and an alcohol content is greater than or equal to 10.5 (v/v)%.

[Claim 9]

A method for improving a flavor of a beer-taste beverage, the method comprising adjusting an apparent attenuation to be greater than or equal to 70.0% and an alcohol content to be greater than or equal to 10.5 (v/v)%.

[Claim 10]

A beer-taste beverage having an original extract concentration greater than or equal to 19.2 mass% and an alcohol content greater than or equal to 12.5 (v/v)%.

[Claim 11]

A method for producing a beer-taste beverage having an original extract concentration greater than or equal to 19.2 mass%, the method comprising performing fermentation in such a manner that an alcohol content is greater than or equal to 12.5 (v/v)%.

[Claim 12]

A method for improving a flavor of a beer-taste beverage, the method comprising adjusting an original extract concentration to be greater than or equal to 19.2 mass% and an alcohol content to be greater than or equal to 12.5 (v/v)%.
