FIG. 5B

A cross-sectional view of a cable assembly 20. The assembly includes a central core 2 and an outer jacket 40. A braided shield 12 is positioned between the core 2 and the jacket 40. A conductive layer 14 is located on the inner surface of the jacket 40. A conductive layer 22 is located on the outer surface of the jacket 40. A conductive layer 6a is located on the inner surface of the jacket 40, adjacent to the braided shield 12. The conductive layers 14, 12, and 22 are collectively labeled 9.
