- (54) Title: COEFFICIENT GROUPS AND COEFFICIENT CODING FOR COEFFICIENT SCANS

(57) Abstract: Techniques are described for a video coder (e.g., video encoder or video decoder) that is configured to select a context pattern from a plurality of context patterns that are the same for a plurality of scan types. Techniques are also described for a video coder that is configured to select a context pattern that is stored as a one-dimensional context pattern and identifies contexts for two or more scan types.
