(54) Title: EYEGLASS AND OTHER PERSONAL ITEMS HOLDER

(57) Abstract: A holder for securing eyeglasses, sunglasses or other personal items that may be securely incorporated into an article of clothing at the time the article is manufactured. The holder includes a base member that can be inserted into an article of clothing. The base member can be securely attached to an interconnecting cord. The cord may have one end threaded through the article of clothing and securely affixed to the base member and the other end securely affixed to the external part of the holder. The external part of the holder can include a hanger with a support base and a loop. The holder allows a wearer to insert a temple piece of a pair of eyeglasses, or a hook attached to another personal item, through the loop and allows the item to assume a secure and relatively flat position against the wearer's body.
