

ABSTRACT

5 The present invention is directed to compounds
useful for the regulation of cholesterol of Formula I,
methods for using them and pharmaceutical compositions
thereof,

15 wherein X and Y are oxygen, sulfur, or $(\text{CR}'\text{R}'')_n$ wherein
n is 1 to 4; R is hydrogen, alkyl, or benzyl; R_1 and R_2
are phenyl, substituted phenyl, naphthyl, substituted
naphthyl, an aralkyl group, an alkyl chain, adamantyl,
or a cycloalkyl group.
