- (54) Title:** SIMULTANEOUS CONFIGURATION FOR PCELL CHANGE AND PSCell ADDITION/CHANGE

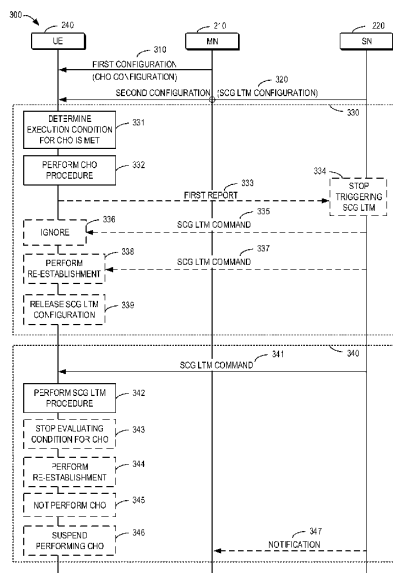

FIG. 3

(S7) Abstract: Example embodiments of the present disclosure relate to a UE, an MN, an SN, processors, methods, apparatuses, and computer readable medium for simultaneous configuration for PCell change and PSCell addition/change. In the solution, the UE may be configured with a first configuration related to a PCell change and a second configuration related to a PSCell addition/change. In addition, the UE may perform a first operation if the PCell change is triggered or may perform a second operation if the PSCell addition/change is triggered. As such, the UE behaviors are defined, and accordingly the mobility of the UE can be guaranteed.
