(54) **Title:** METHOD AND SYSTEM FOR IDENTIFYING A MATCH WITH A PRODUCT

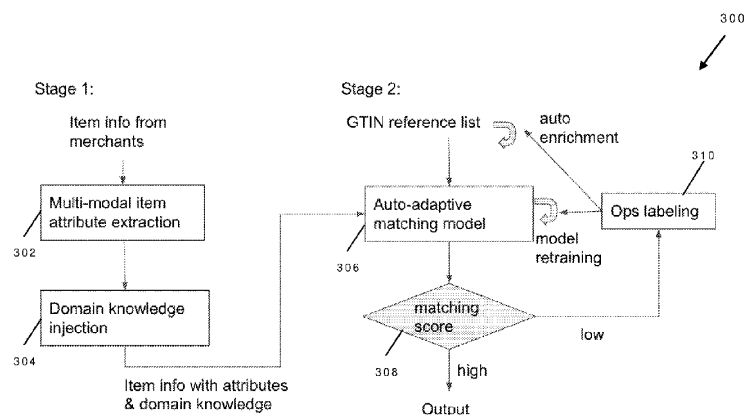

Figure 3

(57) **Abstract:** The present disclosure provides methods and systems for identifying a match with a product. In some examples, there is provided a method for identifying a match with a product, comprising: extracting, by a processor, one or more attributes relating to a product from data indicated in a request for identifying the product, each of the one or more attributes describing the product; adapting, by the processor, the one or more attributes based on historical data relating to the product into a same format as that of one or more entries in a database, the database comprising one or more entries for each of a plurality of products; and identifying a match with the product from the plurality of products, the identification based on comparing, by the processor, the one or more attributes with each corresponding entry of the plurality of products.
