(54) Title: TRAINING METHOD FOR TEXT MERGING DETERMINATION MODEL, AND TEXT MERGING DETERMINATION METHOD

(54) 发明名称: 文本合并判断模型的训练方法和文本合并判断方法

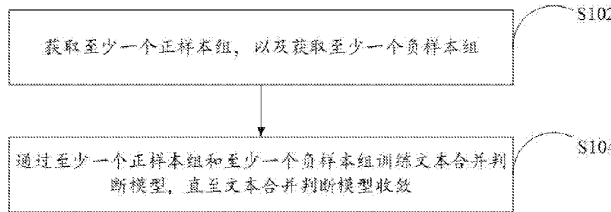

图 2

- S102 Acquire at least one positive sample group, and acquire at least one negative sample group
- S104 Train a text merging determination model by means of the at least one positive sample group and the at least one negative sample group until the text merging determination model converges

(57) Abstract: Disclosed in the embodiments of the present description are a training method and apparatus for a text merging determination model, and a storage medium and an electronic device. The method in the present description comprises: constructing at least one positive sample group that cannot be merged, and at least one negative sample group that can be merged; training a text merging determination model by means of the positive and negative sample groups until the text merging determination model converges, such that the text merging determination model can be used in a task for determining whether to merge two pieces of text.

本国际公布:  
— 包括国际检索报告(条约第21条(3))。

(57) 摘要: 本说明书实施例公开了一种文本合并判断模型的训练方法、装置、存储介质及电子设备，本说明书通过构建至少一个不可以合并的正样本组和可以合并的负样本组，通过正负样本组对文本合并判断模型进行训练，直至文本合并判断模型收敛，以使文本合并判断模型可以被用于判断两个文本是否合并的任务中。
