ance Notes on Codes and Abbreviations" appearing at the begin-
ning of each regular issue of the PCT Gazette

G00002

(54) Title: METHOD, ASSEMBLY AND ADDITIONAL COAT FOR THE CONSTRUCTION OF INTERIOR WORKS

(57) Abstract: The present invention provides a construction assembly for interior works, comprising prefabricated elements, e.g. gypsum fiberboards, wherein said prefabricated elements comprise a coating layer formed of at least one skim coat deposited on said prefabricated elements, and at least one jointing material, e.g. a sealing coat, which joints adjacent said prefabricated elements to form a substantially plane outer surface comprising the visible surface of said at least one jointing material and the visible surface of the skim coated prefabricated elements, wherein said at least one jointing material and said at least one skim coat comprise a mineral filler, a binder and water, and wherein the composition of said at least one jointing material and said at least one skim coat are adapted to each other, whereby said at least one skim coat are adapted to each other, whereby said at least one jointing material and said skim coat form, both in a dry state, a substantially homogeneous surface and whereby said outer surface is ready to be decorated
