(54) Title: SELF-CONTAINED, MULTI-AXIS RECORDABLE AND STORAGE APPARATUS

(57) Abstract: A self-contained, multi-axis recordable and storage apparatus includes an external frame, a hinged component pivotally attached to the frame by a shaft or ball joint, and/or an internal component. The apparatus provides a self-contained, multi-axis recordable and storage apparatus which will universally adapt to all existing reading or writing devices. The apparatus will accept existing recorded medium, analog or digital, and allow the whole apparatus assembly with its protective cover and container to be inserted into playing, reading, or writing devices.

For two-letter codes and other abbreviations, refer to the "Guidance Notes on Codes and Abbreviations" appearing at the beginning of each regular issue of the PCT Gazette.
