"Gift-a-card"

Basic idea is **combining a gift and a greeting card into one**. What is available in the market currently are generic greeting cards/musical greeting cards....

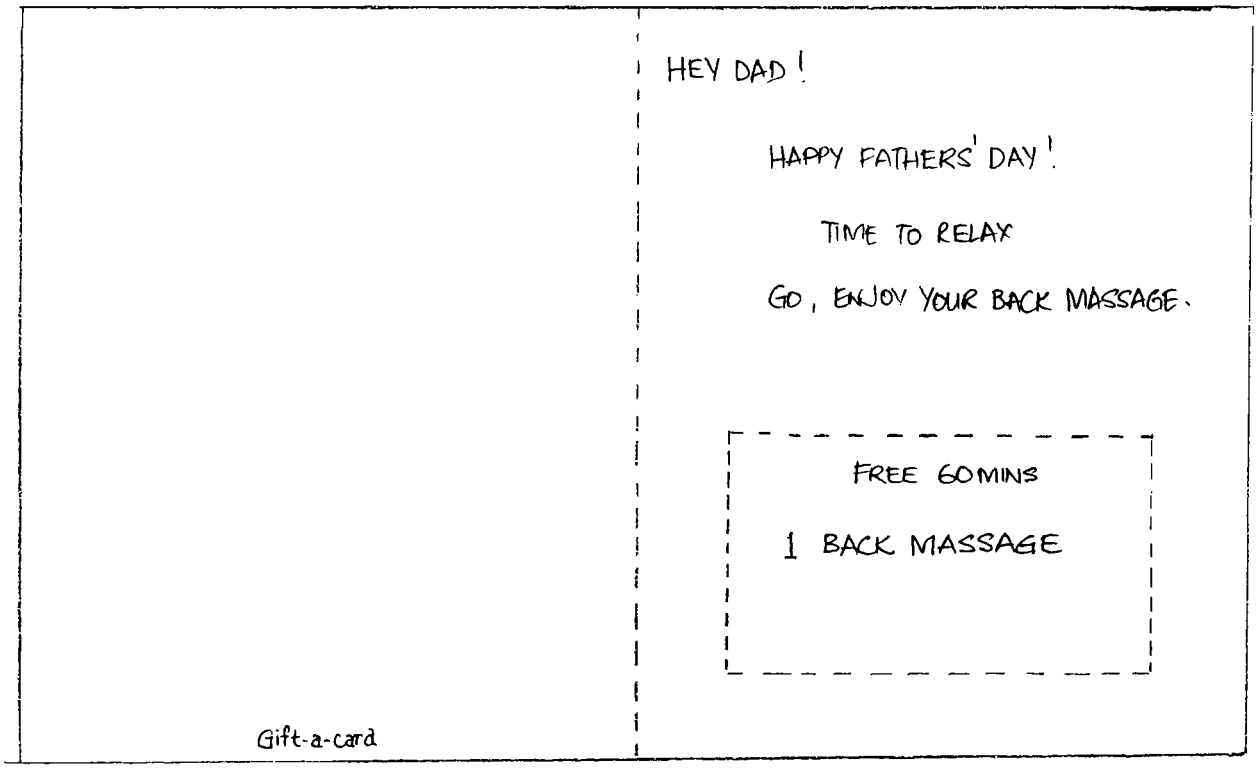

We have come up with this idea of combining a gift and a card together.

There will be a tear out coupon attached to all the "gift-a-card". Each card will come with a gift for the recipient to claim.

Eg.a Fathers' Day card that comes with a free 60mins back massage for the dad

"Hey Dad! Happy Fathers Day!....time to relax ..from your family with love. Go and enjoy your back massage!"
