(54) Title: MOBILE PHONE WITH SWIPE PRINTER

(57) Abstract: A mobile telecommunications device, such as a mobile telephone, includes an internal printer for printing on print media external to the device. A speed sensor measures the speed at which a user moves the device relative to the print media and controls the rate of ink ejection accordingly. The device may print images displayed on a display screen of the device or may print image data received through a wireless telecommunications network.
