

METHOD AND SYSTEM FOR ISSUING A PAYMENT MEDIUM

ABSTRACT

A method and system for issuing a payment medium for use in an electronic payment transaction. The method comprising the steps of identifying a user based on identification data received from the user at an Automated Teller Machine (ATM); receiving, at the ATM, a request from the user for a payment medium having a monetary amount and a validity period of the payment medium; generating, at the ATM, a code that is associated with the identification data, the monetary amount and the validity period and dispensing, at the ATM, the payment medium with the code.
