- (54) Title:** A METHOD OF RECYCLING MIXED STREAMS OF EWASTE (WEEE)

- (S7) Abstract:** The present invention relates to the recycling of waste electrical and electronic equipment (WEEE). Preferably, the present invention relates to the substantial recycling of all material forming the WEEE, thus providing substantially zero landfill. In yet another form, the invention relates to an additive and/or method of providing an additive. In still another form, the invention relates to recycling ink, toner, and/or PU foam from imaging consumables, forming part of the WEEE. In another form, the invention relates to the recycling of plastic materials containing flame retardants, including the recycling of plastics materials, such as plastics materials containing brominated flame retardants generally based on styrenics (*e.g.* PS, HIPS, ABS, PPO/PS, PPE/PS, ABS/PC) and polyamides (Nulon 6, nylon 6, 6, nylon 12) and other engineering plastics such as polyacetal, polycarbonate, PET, PBT, liquid crystal polymers.
