

## **ABSTRACT**

The disclosure provides a method for image generation and a related device. The method includes: displaying a text editing region and an image effect setting control in an image display interface; determining, in response to editing the text content in the text editing region, a target prompt based on the text content; determining, in response to the operation on the image effect setting control, at least one target parameter; and displaying the generated target image in a first display region of the image display interface based on the target prompt and the target parameter.
