

ABSTRACT**RESPONSE INFORMATION PROCESSING METHOD, DEVICE AND
STORAGE MEDIUM**

5 Disclosed by the present invention is a response information processing method,
comprising: a network device determines whether a user equipment sends the response
information corresponding to the target data, and obtains the determination result; sending
an instruction signaling carrying the determination result to the user equipment; and the
user equipment determines, on the basis of the instruction signaling sent by the network
10 device, whether to send the response information corresponding to the target data. Further
disclosed are another response information processing method, a network device, a user
equipment and a storage medium.
