

METHOD AND SYSTEM FOR PREDICTING COMMERCIAL STORE PREMIUM,
ARRANGING TRANSACTION AND MANAGING RIGHT OF PLEDGE

ABSTRACT

A method and a system for predicting a commercial store premium, arranging a transaction and managing the right of pledge are disclosed. The method for transacting a premium comprises the steps of: predicting a premium for a commercial store on the basis of information related to the commercial store; and providing the premium as a sales reference price for a transaction of the commercial store.
