Abstract

ANION EXCHANGE RESIN-PACKED TOWER

G00002

There are provided:

- (1) an anion exchange resin packed tower having no hollow
5 on an inner wall of a space of the tower, in which space the
anion exchange resin is packed, and
- (2) a process for purifying a hydrogen peroxide aqueous
solution, which comprises the step of passing a hydrogen peroxide
aqueous solution through an anion exchange resin packed tower
10 having no hollow on an inner wall of a space of the tower, in
which space the anion exchange resin is packed.
