- 101 Display a first object information set on a first preset page, wherein the first object information set comprises first object information of preset objects in a preset object set, the preset object set being associated with a target live streaming video interface
- 102 Display target prompt information at a position adjacent to the first object information of a first target preset object, wherein the first target preset object is a preset object in the preset object set, service data of the first target preset object satisfies a preset requirement, and the target prompt information is used for giving a prompt to set the first target preset object as a preset object having a target object attribute, such that second object information of the preset object having the target object attribute comprises a target tag, and the second object information of the preset object having the target object attribute is displayed at a target position in a second object information set, the second object information set being displayed on a second preset page of a second device, and the second preset page being associated with the target live streaming video interface

(57) **Abstract:** Provided in the present disclosure are information display methods, an apparatus, a device, a storage medium, and a product. A method comprises: in a first device, displaying on a first preset page a first object information set, which comprises first object information of preset objects in a preset object set, the preset object set being associated with a target live streaming video interface; and displaying target prompt information at a position adjacent to the first object information of a first target preset object, service data of the first target preset object satisfying a preset requirement, the target prompt information being used for giving a prompt

to set the first target preset object as a preset object having a target object attribute, second object information of the preset object having the target object attribute comprising a target tag and being displayed at a target position, and the second object information set being displayed on a second preset page of a second device associated with the target live streaming video interface. Using the technical solution helps to improve the efficiency of setting target object attributes of preset objects.

(57) 摘要: 本公开提供信息展示方法、装置、设备、存储介质及产品。该方法包括: 第一设备中, 在第一预设页面中展示第一对象信息集合, 其中包括预设对象集合中的预设对象的第一对象信息, 预设对象集合与目标直播视频界面关联, 在第一目标预设对象的第一对象信息的相邻位置展示目标提示信息, 第一目标预设对象的业务数据满足预设要求, 目标提示信息用于提示将第一目标预设对象设定为具备目标对象属性的预设对象, 具备目标对象属性的预设对象的第二对象信息包含目标标签且展示于目标位置, 第二对象信息集合展示于第二设备中的与目标直播视频界面关联的第二预设页面。通过采用上述技术方案, 有助于提升预设对象的目标对象属性的设定效率。
