- (54) **Title:** ERROR RESILIENT DECODING UNIT ASSOCIATION

**FIG. 6**

(57) **Abstract:** Techniques are described for signaling decod-  
ing unit identifiers for decoding units of an access unit. The  
video decoder determines which network abstraction layer  
(NAL) units are associated with which decoding units based  
on the decoding unit identifiers. Techniques are also de-  
scribed for including one or more copies of supplemental en-  
hancement information (SEI) messages in an access unit.
