(54) Title: FORMING A CONDUCTIVE IMAGE USING HIGH SPEED ELECTROLESS PLATING

FIGURE 1

(57) Abstract: A method of producing a conductive image using high speed electroless plating according to the present invention preferably includes the steps of: preparing the surface of a substrate; depositing a metal coordination complex into the surface of the substrate; reducing the metal coordination complex to form an image in the surface of the substrate; depositing a protective material onto the image; electrolessly plating metal onto the image.
