Claims

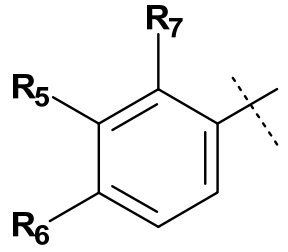

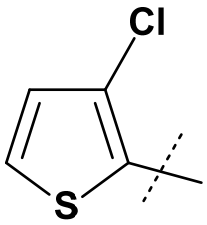

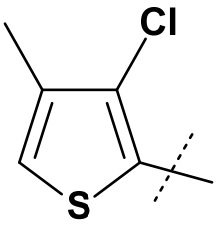

1. Use of a compound of formula I:

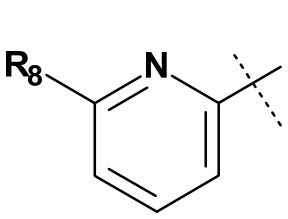

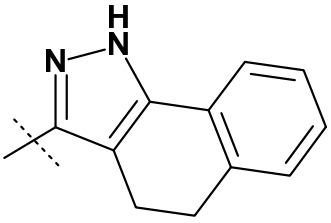

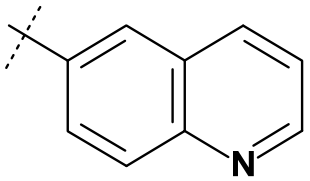

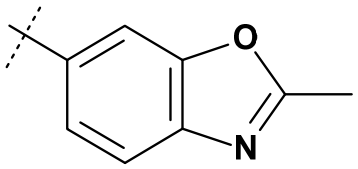

I

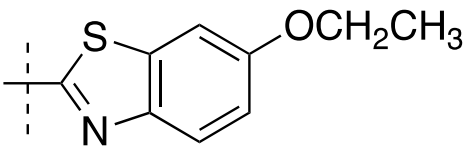

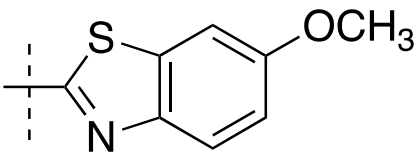

or a pharmaceutically acceptable salt or solvate thereof, in the preparation of a medicament to treat cancer, wherein:

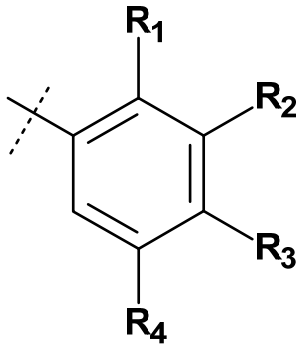

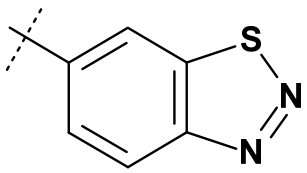

X represents NH;

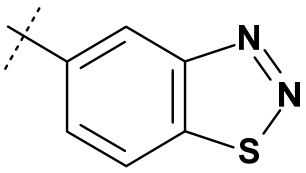

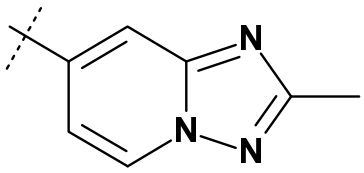

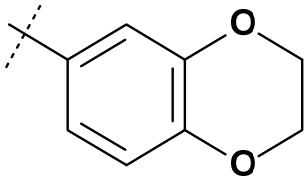

Y represents:  ,  ,  ,

 ,  ,

 ,  ,

 or, 

Z represents: , ,

, , ,

, , or

,

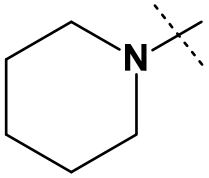

R^1 represents H, Cl, F, OCF_3, OCH_3 or NO_2;

R^2 represents H, Cl, or OCH_3;

R^3 represents H, F, OCF_3, CH_3, OCH_3; CH_2CH_3, Cl, -C(=O)OCH_3 or NO_2;

R^4 represents H, Cl or CH_3;

R^5 represents H, Cl or F;

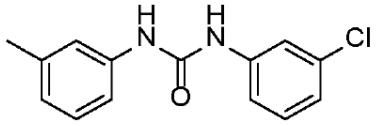

R^6 represents H, NO_2, $N(CH_3)_2$, or ;

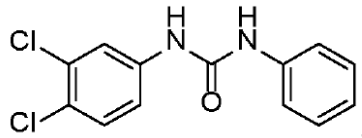

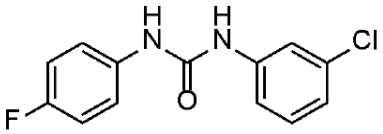

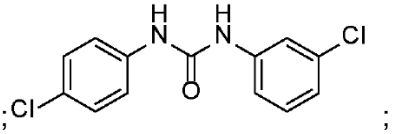

R^7 represents H or OH; and

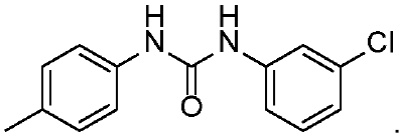

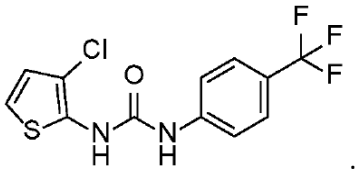

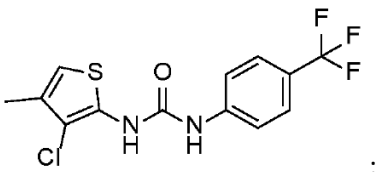

R^8 represents H or CH_3;

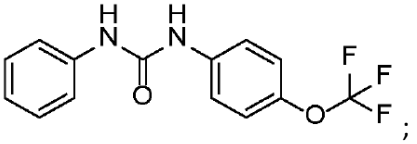

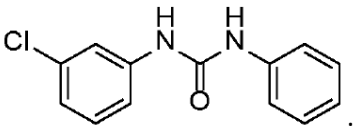

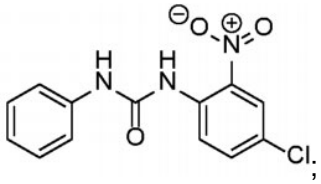

wherein the dotted lines represent the point of attachment to the rest of the molecule;

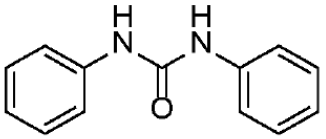

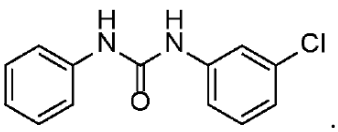

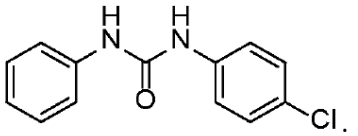

provided that:

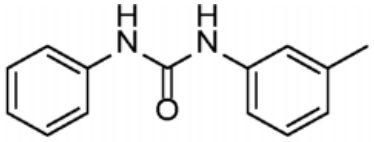

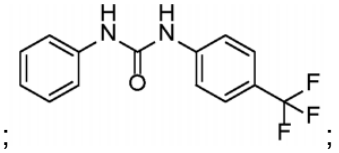

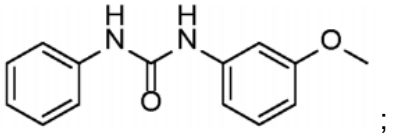

the compound is not ;

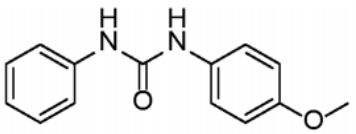

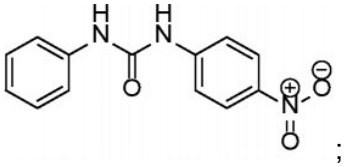

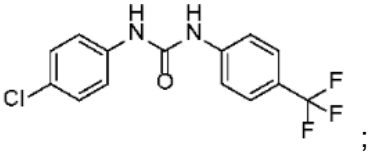

; ; ;

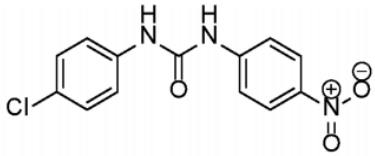

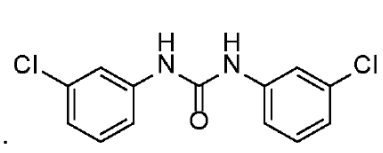

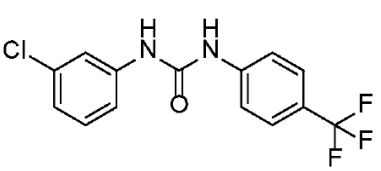

; ; ;

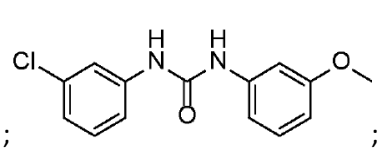

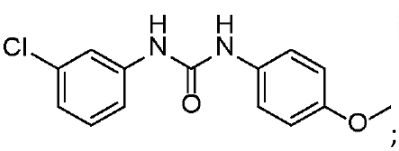

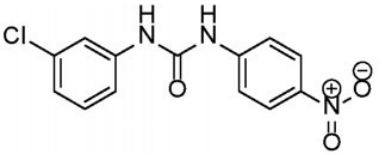

; ; ;

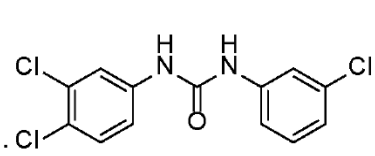

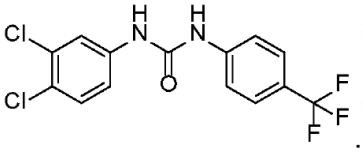

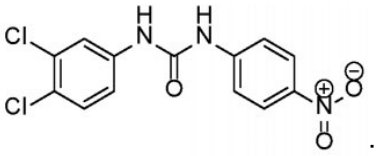

; ; ;

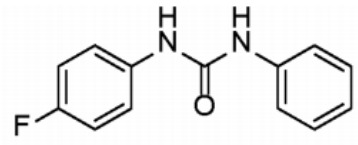

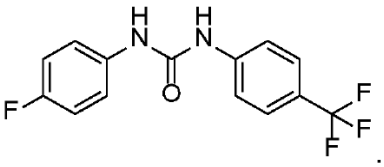

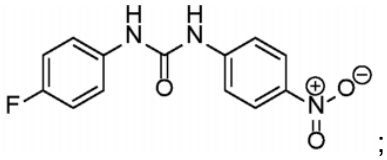

; ; ;

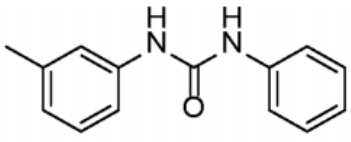

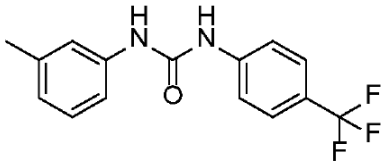

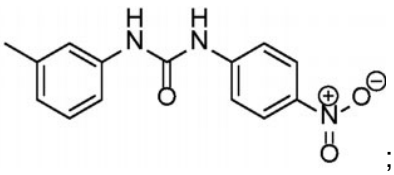

; ; ;

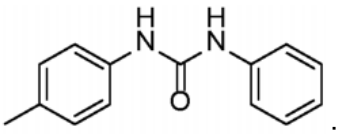

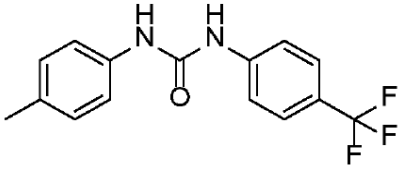

; ; ;

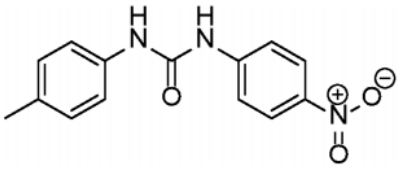

; ; ;

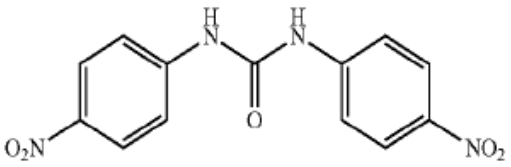

;  ;  ;  ;

 ;  ;  ;

 ;  ;  ;

 ;  ;

or ;

the compound is not  ;

 ;  ;

 ;  ;

;

;

;

;

;
; or

;

at least one of R^1 to R^7 is not H;

the compound is not 1-(6-methoxybenzo[d]thiazol-2-yl)-3-phenylurea;

the compound is not 1-(4-chlorophenyl)-3-(6-methoxybenzo[d]thiazol-2-yl)urea;

the compound is not 1-(3-fluorophenyl)-3-(6-methoxybenzo[d]thiazol-2-yl)urea;

the compound is not 1-(3,4-dichlorophenyl)-3-(6-methoxybenzo[d]thiazol-2-yl)urea;

the compound is not 1-(2,3-dichlorophenyl)-3-(6-methoxybenzo[d]thiazol-2-yl)urea;

the compound is not 1-(3-chlorophenyl)-3-(2-hydroxyphenyl)urea;

the compound is not 1-(4-chlorophenyl)-3-(2-hydroxyphenyl)urea;

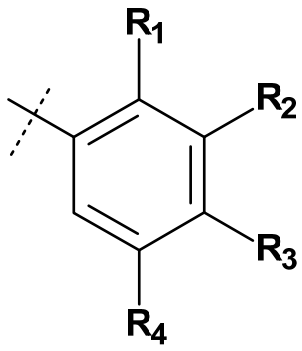

the compound is not 1-(3-fluorophenyl)-3-(6-methoxy-1,3-benzothiazol-2-yl)urea;

the compound is not 1,3-bis(3-chlorophenyl)urea;

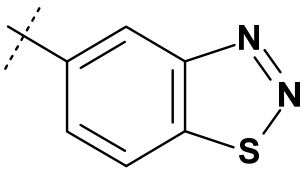

the compound is not 1-(3-chlorophenyl)-3-(4-methylphenyl)urea; and

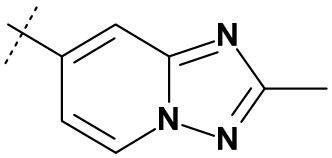

the compound is not 1-(3-chlorophenyl)-3-(2,4-dichlorophenyl)urea.

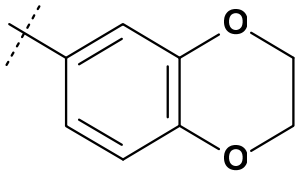

2. Use according to Claim 1, wherein Z represents:

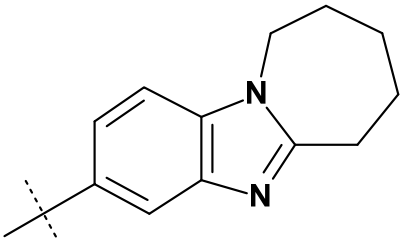

,

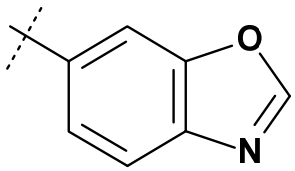

,

,

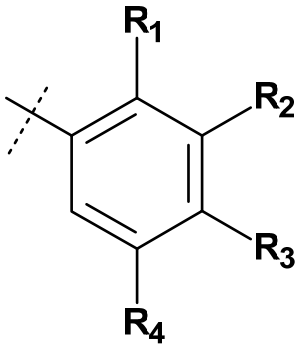

,

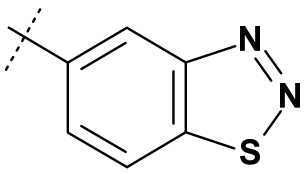

, or

, where the dotted lines represent the point of attachment to the rest of the molecule.

3. Use according to Claim 2, wherein Z represents

or

,
where the dotted lines represent the point of attachment to the rest of the molecule.

4. Use according to any one of the preceding claims wherein R^1 represents H, Cl, F, OCF_3, or OCH_3.

5. Use according to claim 4, wherein R^1 represents H, Cl, F, or OCH_3.

6. Use according to any one of the preceding claims wherein R^2 represents H, Cl, or OCH_3.

7. Use according to any one of the preceding claims wherein R^3 represents H, F, CH_3, OCH_3, Cl, or NO_2.

8. Use according to Claim 7, wherein R^3 represents H, F, CH_3, OCH_3, or Cl.

9. Use according to any one of the preceding claims wherein R^4 represents H or CH_3, optionally wherein R^4 represents H.

10. Use according to any one of the preceding claims wherein R^5 represents H or Cl, optionally wherein R^5 represents H.

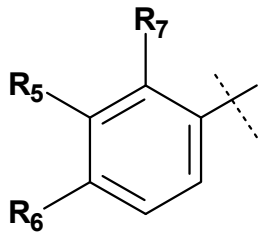

11. Use according to any one of the preceding claims wherein R^6 represents H or NO_2.

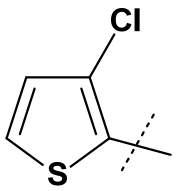

12. Use according to Claim 11, wherein R^6 represents H or NO_2.

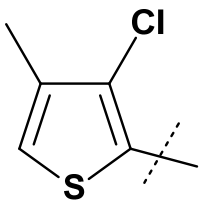

13. Use according to any one of the preceding claims wherein R^7 represents OH.

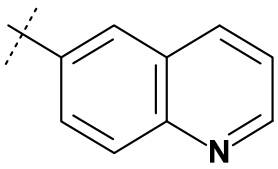

14. Use according to any one of the preceding claims wherein R^8 represents H.

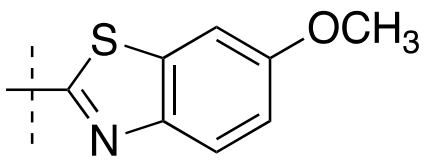

15. Use according to any one of the preceding claims, wherein Y represents:

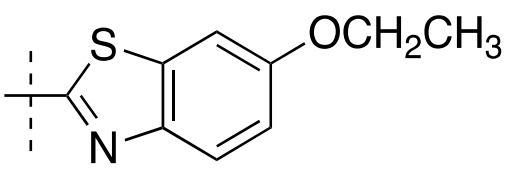

,

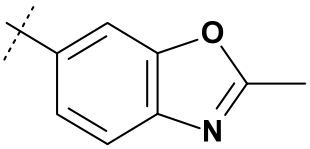

,

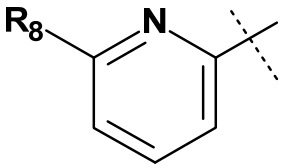

,

,

,

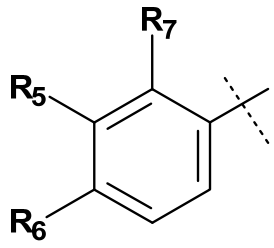

,

,

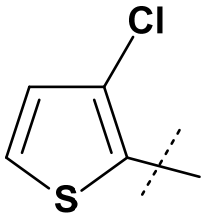

or ,

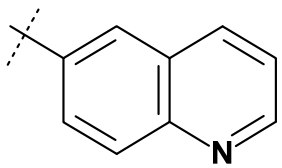

wherein the dotted lines represent the point of attachment to the rest of the molecule.

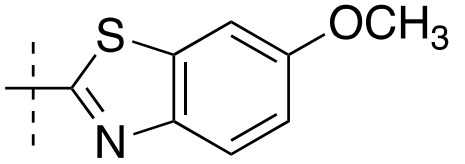

16. Use according to Claim 15, wherein Y represents:

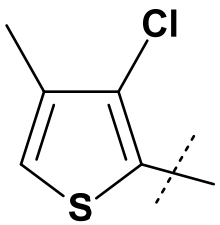

,

,

,

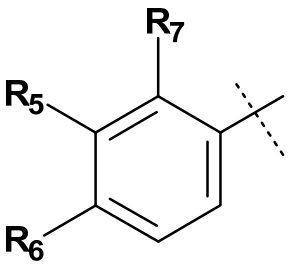

,

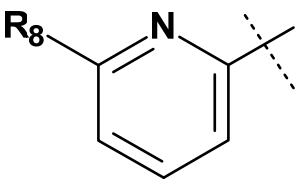

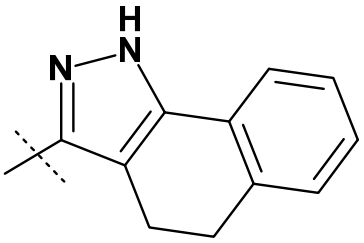

or ,

wherein the dotted lines represent the point of attachment to the rest of the molecule.

17. Use according to any one of Claims 1 to 14, wherein Y represents:

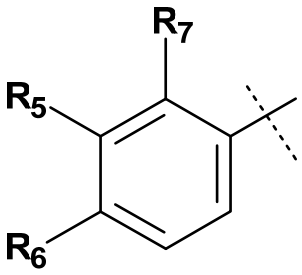

,

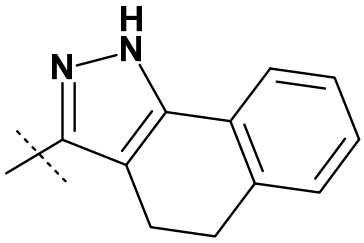

,

or

where the dotted lines represent the point of attachment to the rest of the molecule.

18. Use according to Claim 17, wherein Y represents:

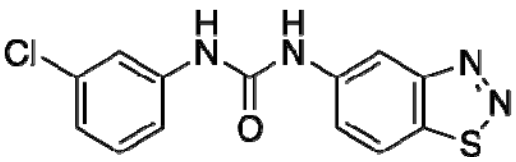

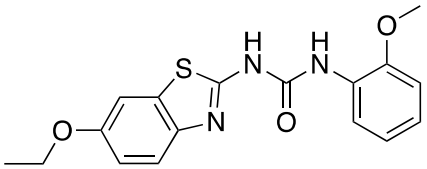

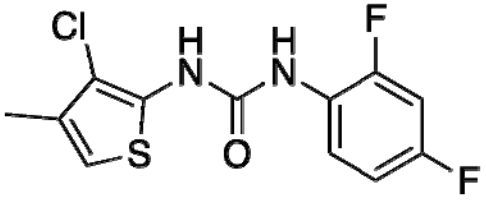

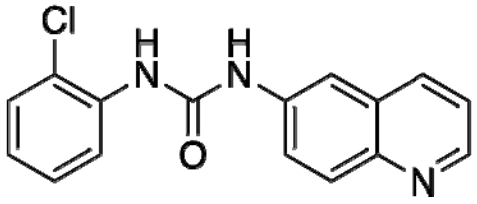

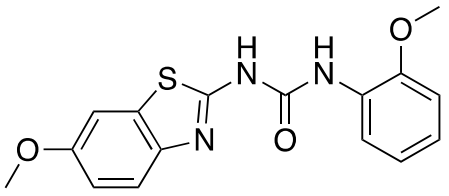

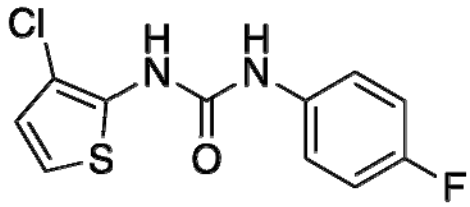

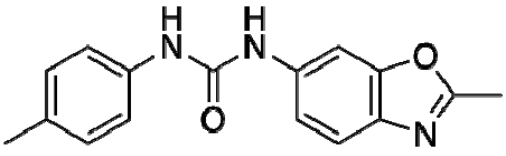

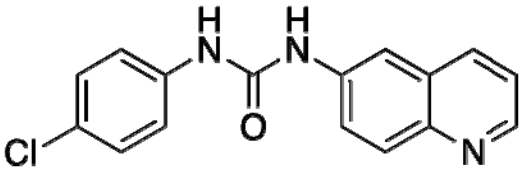

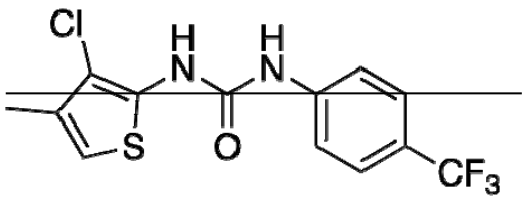

or

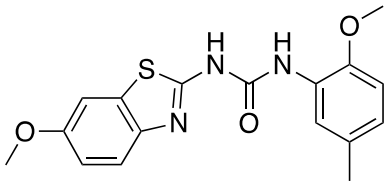

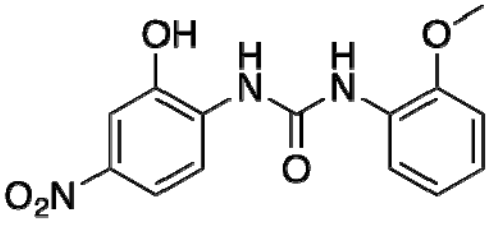

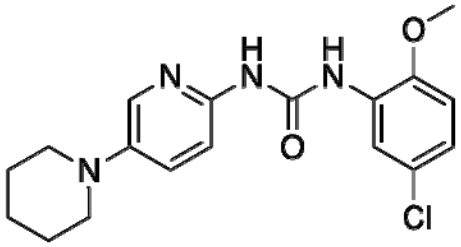

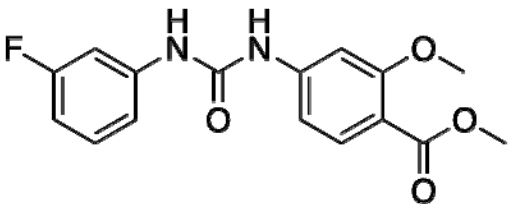

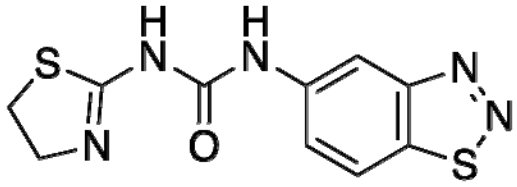

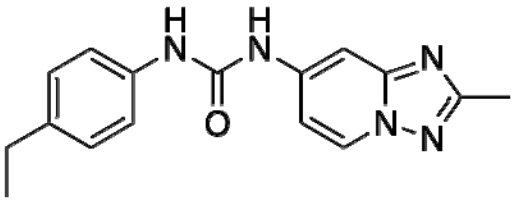

,

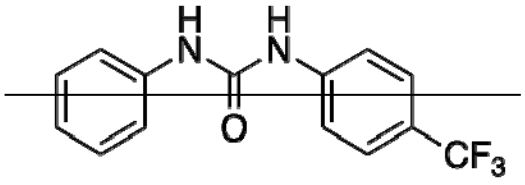

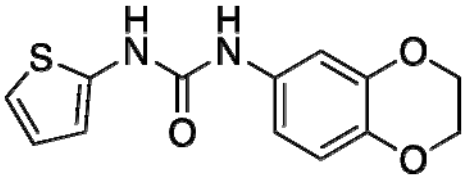

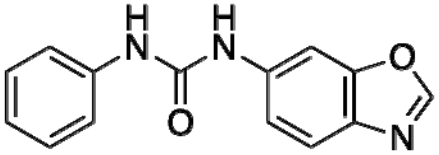

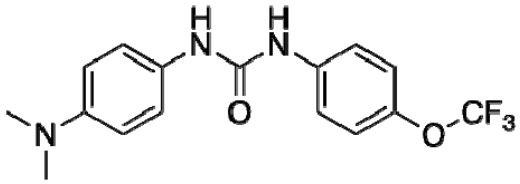

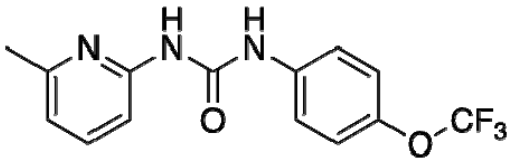

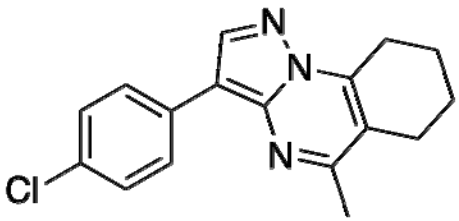

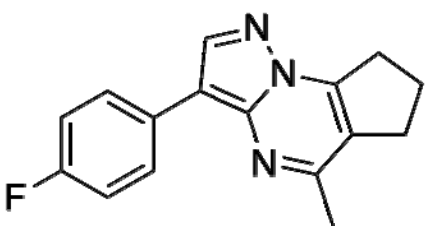

where the dotted lines represent the point of attachment to the rest of the molecule.

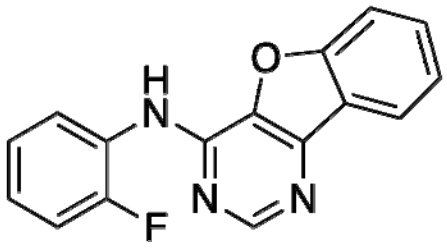

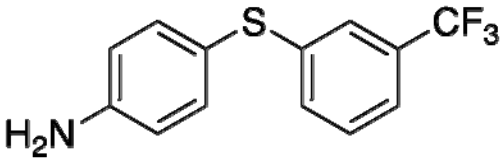

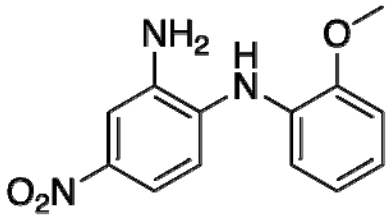

19. Use of a compound having the formula:

Formula

Formula

Formula

Formula

Formula

or a pharmaceutically acceptable salt or solvate thereof, in the preparation of a medicament to treat cancer.

20. Use according to any one of the preceding claims, wherein the cancer is selected from liver cancer (e.g. hepatocellular carcinoma) and lung cancer.
