(54) Title: SYSTEMS AND METHODS FOR DISPLAYING IN-FLIGHT NAVIGATION PROCEDURES

(57) Abstract: A computing device for displaying procedures for an aircraft is provided. The computing device includes a presentation interface, a user input interface, and a processing device coupled to the presentation interface and to the user input interface. The processing device is configured to cause the presentation interface to display an initial procedure display, and in response to a triggering event, cause the presentation interface to display an adjusted procedure display that emphasizes a predetermined portion of a procedure.
