- (54) Title: HYGIENIC HANDLE MADE FROM A STICKER BLANK

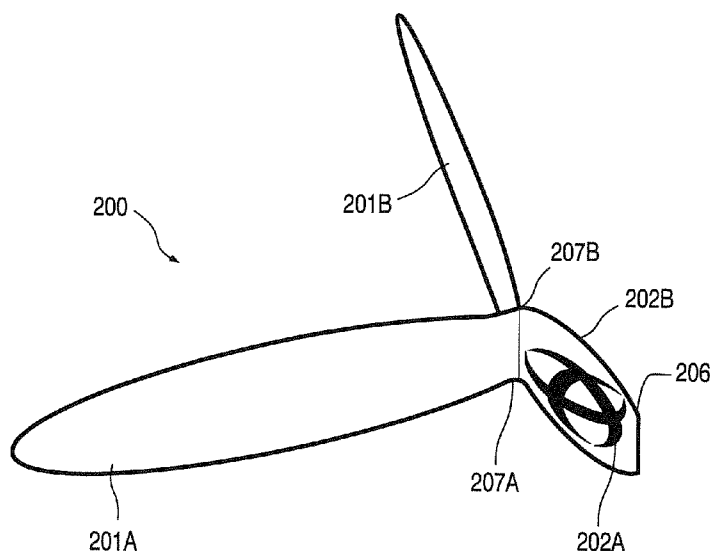

FIG. 2B

(57) Abstract: Sticker blank (200) for forming a handle, in particular a toilet handle, wherein the sticker blank has a top layer with a bottom side provided with an adhesive layer. The adhesive layer is provided with a removable cover layer for initially covering the adhesive layer. The sticker blank has at least one bonding portion for attaching the handle to a moveable object, in particular a toilet seat assembly, and at least one handle portion for providing a hand grip. By forming the handle from the sticker blank, the handle can be obtained in a cost-advantageous manner. In addition, the plate-shaped and flexible handle with a thickness of 1 mm at most does not present an obstacle during use.
